TECHNOLOGIES

Circle Of Care

Umesh Iyer
BeneSalus Technologies LLC

Circle of Care

- Users benefit if their Circle of Care plays an active role in helping them manage their help better
- Members of a User Circle of Care
 - User
 - Family Members
 - Providers (Doctors, Pharmacists, Nurses)
 - Agencies such as Epilepsy Foundation

Formation of Circle of Care

- Circle of Care begins with signup. BeneSalus Technologies very firmly believes in Circle of Care that a patient Signup involves at least two members
 - User and Signup Agency (Doctor, EFTX etc)
- User gets an email inviting them to login to the BeneSalus Technologies cloud to extend and manage their circle of care

Cloud Management Page

- Link
 - <https://app.benesalustech.com>
- Different views of patient data based on your role in the circle of care
- Example Roles are
 - Patient
 - Providers (Doctors, Pharmacists, Nurses)
 - Family Members
